

Akshay Steel forges our ties with Jamshedpur!

The new additions to Samadhan's client list for Microsoft Dynamics

Akshay Steel Works Private Limited and Industrial Forging and Engineering Company Limited recently decided to implement Microsoft Dynamics Navision at their plants in Jamshedpur.

Volume 3, Dated : 3rd September 2006

The solution proposed includes manufacturing along with all other commercial functionalities. The project is already underway and expected to be complete in 3 months.

The ease of use, integration with MS Office and fast implementation by Samadhan who are one of the most experienced Navision implementers in eastern India ap-

Introduction of Business Ready Licensing by Microsoft Dynamics Navision aimed at Small and Medium Businesses

User based pricing with extremely useful functionalities packed in gives a world of convenience to the SMB clients. It lowers the entry level licenses costs and gives a concomitant increase in functionalities.

Full featured manufacturing, project management, fixed asset management and CRM marketing and sales are now standard offering for Advanced Management users. The non-manufacturing clients can take Business Essential licenses at even lower entry level investments.

Samadhan to use RIM (Rapid Implementation Methodology)

MD Navision has released industry templates and automated the process to make Navision implementation more robust and reduce the implementation time.

Sigma Computer

HP Premium Partner improves marketing capabilities with an ERP solution

“With Navision, we are able to analyze which segment is the most profitable or gives the maximum revenues, and concentrate on those.”

Rishi Pandey, Chief Executive Officer, Sigma Computer
