Microsoft Dynamics Nav 2009 SPI now available to enhance user experience

What's New in Application Features for Microsoft Dynamics NAV 2009 SPI

Microsoft Dynamics NAV 2009 SPI provides application enhancements to address customer requests, including optimized data entry functions, improved purchase posting in jobs, simpler VAT handling, and various improvements in most application areas.

Data entry enhancements, on report drill down, filtering ease, keyboard shortcuts to speed up the usage speed and several enhancements in jobs and resources, VAT improvement, warehousing and company set ups are some of the key enhancements.

The role tailored client interface which was introduced in Nav 2009 has now

started blooming with the possibilities it represents. SPI unlocks some of the possibilities.

The future enhancements in the product will take it closer to all that a user

can ever expect from the business solutions

JREDA gets going on Nav 2009

Jharkhand Renewable Energy Agencies deals with promotion of alternative energy in the state of Jharkhand.

The operations started on Nav 2009 by building up the data for various projects and programs for all the years including 2008-2009.

Samadhan helped JREDA in capturing information along with the respective documents which are being scanned

Third party inspection form with fields for Document No., Village Code, and a table with columns for Name of Change, Station No., etc.

And associated with the transactions so that a unified view is available from one solution for all aspects.

Maasis Interfashion gets Samadhan into garment export domain..

Massis Interfashion Private Limited, named by Mr. Pravash Agrawal after the famed Maasi (maternal aunt) Mrs. Indu Modi who took Pashmina to the world.

Manufacturer and exporters of fashion accessories like scarf, bags, yarn, fabric, garments and with plans to get into garment retailing Maasis planned to get all its operations in one integrated solution. The obvious choice was Microsoft Dynamics Nav implementation by Samadhan.

Garment exports involves creating samples with cost estimates and meeting international buyers for their clearance on quality, processes and prices.

The exact specifications arrived at are then engineered to create a product by interweaving many small processes including but not limited to dyeing, stitching, finishing, brand and care labeling, packing and shipping to land at the customer doorstep in time to meet the season.

V-Fraas, a partner to Massis has already been using Microsoft Dynamics Nav in their German operations. V Fraas has been actively participating in making sure that Massis gets an optimal solution configured for its operations.

The solution is about to go live and helps Samadhan understand yet another business- garment exports.

“I have been pleasantly surprised with the outcome of the ERP implementation. It give me what I need to manage my business.

Samadhan came as breath of fresh air and engaged its team with us to get us going on the ERP in about a month. We are happily planning our next project with them now.”

Mr. Prabir K Guha

Managing Director,

Hi Care Plastics Pvt. Ltd

(National Awardee for 2008 for Quality Products in Mini and Small Enterprises by Ministry of Industry, Government of India for Manufacturing Outstanding Quality Products

Hi+Care Plastic Pvt. Ltd. At Kolkata gets timely help from Samadhan

Hi Care Plastics Private Limited manufactures medical disposable products. Gloves, aprons, laparoscopy clean sheet range, gauze swabs, clean care range, HIV and hepatitis kits etc. Based out of Kolkata and placed in mini and small category of companies Hi Care has bagged national awards a number of times.

Hi+Care had tried to implement

Microsoft Dynamics Nav a couple of years earlier but the implementation ran into snags.

Microsoft came forward and showed its commitment to get the solution going by asking one of the most seasoned and experienced Nav implementers in eastern India, Samadhan to help Hi Care.

The engagement go decided in one meeting and Samadhan resources rolled their

sleeves up and got to the task.

We were very happy to see a happy if not exhilarated face of the promoter, Mr. P K. Guha.

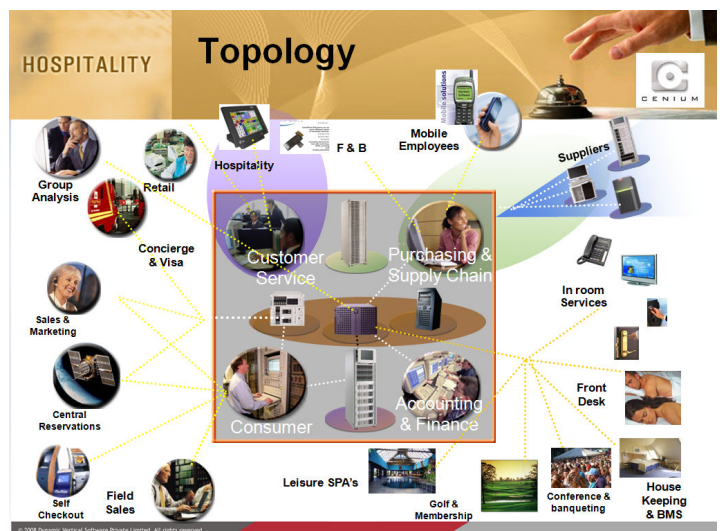

Samadhan is now mandated to upgrade the current version of the solution to Nav 2009 so that full benefit of the world class solution becomes available to Hi Care.

Hospitality and retails solution available form Samadhan

We are very happy to announce availability of the very best integrated solution for Indian Hospitality Industry from Samadhan. The vertical developed on Microsoft Dynamics Nav is a dream solution, India has been waiting for.

LS Retail also on Microsoft Dynamics Nav is now available from Samadhan.

Contact us for further details.

Sixth pay commission incorporated for TVNL and payroll for SPL rolled out

The sixth pay commission revision did mean a windfall for the employees of TVNL but for the accounts it would have been a nightmare to incorporate the changes and efficiently pay the arrears and make the necessary reporting to the management.

Since TVNL has been using Microsoft Dynamics Nav based payroll for last two years and has Samadhan to stand by, the change over was managed very smoothly.

Saraswaty Press Limited also decided to roll out the payroll component

delivered by Samadhan on Microsoft dynamics Nav. A natural integration with accounts and savings in expenditure in overtime to calculate the payroll were some of the distinct advantages acknowledged by Saraswaty Press Ltd.

Ganesh Sponge orders for Sponge Iron solution on Nav 2009

One of the leading Sponge Iron Groups in Eastern India, Ganesh Sponge is an ambitious player in Dalmia group, with eyes set on claiming a significant role in the industry.

Inventory management for raw materials with tracking of TP, mining leases, transporters details, truck number and the specific processes of a typical sponge plant is what is being

captured and configured by Samadhan on Microsoft Dynamics Nav for Ganesh Sponge.

Microsoft Dynamics Nav was selected by Director Mr. Ashish Rungta because it offered a neat solution, simple to use and most importantly with upgrade path to arrest product obsolescence.

Samadhan, with its impressive credentials of having implemented scores of projects and very keen to take care of the specific needs of Ganesh sponge was a clear differentiator for the company.

“Microsoft® Dynamics™ NAV handles all the financial and accounting tasks of our company. It also handles the regulatory compliances of the company. Information availability in an integrated manner has made the management of the business very easy and efficient”

JOST transitions to Nav 2009 IIM Shillong to teach Microsoft Dynamics Nav

Jost India Auto Components Pvt. Ltd. Decided to upgrade the current solution to Nav 2009 so that the solution keeps pace with the technology.

JOST has started using the unique role tailored client interface and reports that it is a lot easier, intuitive and cutter free interface.

They are also planning to extend the solution to include the manufacturing functions very soon.

IIM Shillong decided to build Microsoft Dynamics Nav into its curriculum for the students of MBA. They signed an academic alliance with Microsoft which was facilitated by Samadhan.

Under the agreement Microsoft has agreed to provide software, upgrades and access to resources on the web site to the institute for as long as IIM keeps using the software to teach its students.

As a standard arrangement, Microsoft asked, Samadhan to extend support to IIM. Samadhan installed and configured the software at IIM and provided training to the faculties at IIM who in turn are going to teach the students.

Samadhan will also stand by for support in case the same is needed by IIM.

The faculty of IIM were pleasantly surprised with the elegance with which very rich functionalities were packed into an extremely easy to use, simple and intuitive solution.
