

### Multitech Auto Limited goes live on 2nd April 2007

All business processes at MAL Auto transitioned to Microsoft Dynamics Nav on the first day of the new financial year. MAL Auto who were using ESS software earlier had commissioned Samadhan to help them in transitioning to Navision, the state-of-the-art Business solution software from Microsoft, specially crafted for small and medium businesses.

Sales and receivable, purchase and payable, inventory, manufacturing, subcontracting, Massop, financial, fixed asset, quality management and plant maintenance are some of the modules which had been targeted for implementation.

Transition to Navision is expected to integrate the information system for all its operation, streamline its processes and be of great help to the company while it plans to expand its current level of operations.

### More customers ask Samadhan to implement Microsoft Dynamics - NAV solution for

**Central Coalfields Limited**, subsidiary of Coal India Limited has asked Samadhan to implement Navision in the captive printing press known as CCL Press at Ranchi.

**R. C. Hazra Memorial Hospital**, a pioneering medical establishment involved in obstetrics-gynecology treatment at Dhanbad would be implementing Microsoft Dynamics - NAV solution for its health as well as publication activities in the sister concern, Maa Karunamoyee Publications Private Limited.

**Alfa Transformers Limited is a Bhubaneswar** based export oriented transformer manufacturer with a blazing rate of growth. Microsoft Dynamics - NAV solution for implementation by Samadhan for its entire set of activities including manufacturing will be a great help in the management of the business through an integrated information system.

**Galaxy Medicare Limited, a Bhubaneswar** based company in the health sector is engaged in manufacturing and distribution of immobility products like POP bandages and wound care products like medicated bandages. Microsoft Dynamics - NAV solution for is expected to provide an integrated business information system and especially help in managing the sales and distribution network spread over the entire country of India.

### Business domain expertise @ Samadhan grows continuously

With each implementation of Microsoft Dynamics - NAV solution for in a new area Samadhan is ever increasing its capacity to gather the nuances of the business and configure it to meet their specific requirements. Some of the main areas where we have got better at are:

**Manufacturing** : Electrical Control panel, Power and Distribution transformers, Steel re-rolling, auto ancillary (forging, machining, heat treatment, 57F4, MASOP), Thermal Power Plant and Batch distillation of Tar.

**Health services** : Orthopedic Hospital, Obstetrics-Gynecology Hospital, Bandage manufacturing and distribution

**Higher Education** : Post graduate courses for business management, human resources management, research and distance education.

**Trade, service and distribution** : White goods, Automobile sales, service and distribution.
