
Utkal Automobile Limited migrate their Business to Microsoft Dynamics Navision

Utkal Automobile Limited brings a metamorphosis in its business operations by implementing Microsoft Dynamics- NAV, an ERP which is specially designed for small and medium business enterprises.

Business activities of UAL, body building unit at Jamshedpur, like sales and receivable, purchase and payable, all operations of manufacturing including subcontracting are now being conducted through Microsoft Dynamics.

The vehicle sales, spares and services operations of its Bhubaneswar unit of Mahindra and Mahindra business starts using Microsoft Dynamics Navision.

More organizations ask Samadhan to implement Microsoft Dynamics Navision for them

Apex Corporation (I) Pvt. Ltd - Dealer in Jamshedpur for some of the most reputed brands in the world like Canon, Atlas Copco and Rockwell Automation chose Samadhan to implement Microsoft Dynamics Navision to organize its sales process along with inventory, finance and payroll.

Wheels, a sister concern of Apex Corporation (I) Pvt. Ltd. is in the business of outdoor advertisement and is considered the leader in Jamshedpur with more than 200 hoardings in Jamshedpur and Ranchi will also use Navision for conducting its business.

MRM Marketing – Ranchi based dealer of Heavy Earth Moving spares and equipment engaged Samadhan for Implementation of Navision.

XLRI Jamshedpur integrates its Provident Fund Trust operations into Navision

XLRI, Jamshedpur, a leading management school has been a user of Microsoft Dynamics NAV for last three years for its entire financial operations including their payroll. Recently Samadhan added a component in the existing ERP which will now help the clients conduct the operations of XLRI Provident Fund Trust with the help of Navision.

An integrated solution makes the operation more reliable. The automatic data updation routine from the payroll application saves tremendous amount of work, removes chances of error and helps them keep individual account of all members in the ERP. All statutory reports and returns created with the new application makes the management of the trust a lot easier.
